SUMMARY

UX Designer with hands-on experience designing user-centered digital solutions for the Ontario Ministry of Transportation and client-based university projects. Skilled in user research, usability testing, wireframing, prototyping, design systems, and synthesizing user feedback into actionable design improvements. Experienced collaborating with multidisciplinary teams and communicating research findings and design recommendations to stakeholders. Strong foundation in accessibility, rapid iteration, and user-centered design, supported by a Bachelor of Design and 3.9 GPA.

Figma • Adobe Creative Suite • Powerpoint • Web/Mobile Design • Miro
Agile • User Testing • Rapid Iteration • Prototyping • User Research • Communication

WORK EXPERIENCE

Ministry of Transportation, Toronto, Ontario, May 2024 – August 2025

UX Designer

- Designed and refined wireframes and interactive prototypes to support the development of user centered digital solutions through Figma design systems
- Conducted and documented user testing sessions, including note-taking and synthesizing feedback to inform design improvements
- Collaborated as an active project team member, contributing ideas, design deliverables, and support across multiple projects
- Supported compliance with AODA accessibility standards, ensuring designs were inclusive and usable for diverse users

Proofpoint, Remote, June 2022 – Dec 2023

AI Data Labeler

- Annotated and categorized large datasets to support the training and improvement of machine learning models and automated data classification systems.
- Reviewed and analyzed raw data to accurately identify key information, applying established guidelines and quality standards to ensure consistency and accuracy.
- Collaborated with cross-functional teams across multiple projects, balancing competing priorities while meeting team and project objectives.
- Created and maintained detailed documentation to accurately capture data findings, classifications, and project-related information.

Ontario Parks, Nobel, Ontario, May 2022 – Sept 2023

Gate Attendant/Administration Assistant

- Delivered excellent customer service by welcoming visitors, issuing permits, addressing inquiries, and managing calls to ensure smooth operations

- Oversaw financial processes including cash flow, scheduling, and preparation of expense claims
- Collaborated with senior clerks to investigate and shift discrepancies, revenue, daily reports while maintaining accurate records, and supported onboarding for efficient team integration

EDUCATION

Wilfrid Laurier University, Brantford, Ontario, Sept 2021 – Apr 2026

Bachelor of Design, Co-op Option

- Graduated with the GPA of 3.9
- Minor in Game Design and Development

PROJECTS

UX Design Capstone for GRCOA, Brantford, Ontario, Sept 2025 - Apr 2026

UX Design Project Member

- Conducted user interviews and facilitated usability testing as well as capturing detailed notes for future design decisions
- Analyzed research data using affinity mapping, SWOT analysis, and systematic coding of interview findings
- Managed client communications and coordinated the planning and scheduling of all meetings
- Presented research insights and recommendations through clear reports and presentations for our client

Training Coordination Solutions, Remote, May 2024 – Oct 2024

UX Design Project Member

- Collaborated with a team to create prototypes and refine UX solutions, conducting user interviews, and synthesizing feedback
- Prepared clear reports and documentation to summarize findings, design decisions, and recommendations
- Communicated with business stakeholders to ensure design solutions aligned with project goals
- Applied UX design principles to support accessibility and usability improvements across the project

AWARDS

- In-course Scholarship, for achieving over a 10.0 GPA in all academic courses, 2022 to 2026
- FLA Dean's Honour Roll, for achieving over a 10.0 GPA in all academic courses, 2021 to 2026
